

# ROTARY RAMBLE

I don't normally comment on the guest speaker but in the case of Laura Davis I feel moved to make an exception.

I feel that people with so called "mental disabilities" don't have a problem; it is us, the so called "normal people" who have difficulty in mixing with people outside the so called "norm".

Laura was articulate, confident, and successful. And, she had a deep understanding of our unease in mixing with people like her.

### Editors Comment

A great time was had by all.

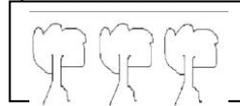

So, why do we need the excuse of a fundraiser?

Why not have a "Guess who's coming to dinner" for the sheer fun of it.

### A lesson in Irish Maths

An Irishman wants a job but the foreman won't hire him unless he passes a simple maths test. Here is your first question the Forman said. "Without using numbers, represent the number 9".

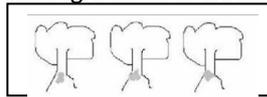

"Dat be easy the Irishman said and proceeded to draw 3 trees.

"What's this?" the boss asks.

"Have you ain't got no brain" Says the Irishamn. Tree + tree + tree makes 9.

"Fair enough," says the boss. "Here's your 2<sup>nd</sup> question. Use the same rules, but this time make the number 99."

The Irishman stares into space for a while, then makes a smudge on each tree.

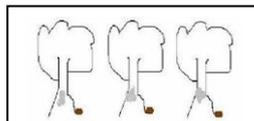

"Ere you go." The boss scratches his head and says. How does that represent 99".

"Each of the trees is dirty now. So it's dirty tree + dirty tree + dirty tree. Dat makes 99."

The boss starts to worry that he will have to hire this guy. All right, last question. Same rules but represent 100.

The Irishman makes a little mark at the base of each tree.

"You must be nuts if you think that represents 100."

The Irishman points to the marks at the base of each tree.

"A dog pooped by each tree.

So dirty tree & a turd + dirty tree & a turd + dirty tree & turd makes 100. He got the job.
